

Outdoor Activities & Environmental Impact Checklist

Trainee Name:..... Course No:

- SRODRV001B** Drive and recover a 4WD vehicle
- SROODR002A** Plan outdoor recreation activities

By participating in 4WD activities you are also impacting on the natural environment and other recreational users.

The outdoor activities you have prepared for, and have participated in, will be used to determine whether you satisfy the elements of these units of competency. Most elements will be assessed during the main assessment activities, as many of the outcomes are similar in context. This is called Integrated Assessment. This checklist is to determine your understanding of some key concepts relating to outdoor recreation and environmental protection.

To assist your Assessor to determine your skill in this area, answer the following questions. If you need assistance with any aspect of this checklist, please speak to your Assessor.

CHECKLIST

Consider the site used for the training -

Unit – Element addressed
